

Fun with Rain

just for kids.

Teaching Objective:

To help children explore and discover the rain.

Items Needed:

- Rain

Activity Description:

1. On the next rainy day, ask your children why water is important. (Rain for our gardens, water to help keep up healthy and strong, to help us be clean, etc.)
2. GO OUTSIDE! Have fun running around together and playing in the rain. Splash in the puddles. Get wet!
3. Once you have settled down, go through the five senses.
 - Ask your children to describe what the rain feels like.
 - Ask them what it tastes like.
 - Ask them what it sounds like.
 - Ask them what it smells like.
 - Finally, what does it look like?

You will be amazed at how much fun it is just to play in the rain!!
